

Breaking News to IFROAR Members

DSTAR Reflector Module R on XLX626 available for ROAR Members.

September 9th, 2017

The Owners of the 626 reflector have kindly made a module available for IFROAR's DSTAR users as a meeting place and with it is an associated FORUM to post/receive information.

- The reflector is accessible via REF/DCS/XRF pathways. For example, if you have access to your DPlus_Hosts file simply ensure that REF626 is pointed at 626.nz or IP address 202.137.244.157
- If you have a Radio simply set URCALL to REF626RL and link to the reflector
- Anyone may access the Dashboards and the IFROAR forum on www.626.nz

This is a great resource for IFROAR members and has been provided gratis by the owners (ZL2EZ and ZL2RO) of 626.nz and the Fellowship thanks them for their generosity.

Please feel free to use the IFROAR Forum and bring an international flavour to this reflector. You may set-up schedules or group calls, and for those of you with HotSpots, you have access to this resource from anywhere.

Hoping to catch on '626R'

John P Moriarty (ZL2JPM)

President, International Fellowship of Rotarians of Amateur Radio

Welcome to 626. Module B is crossmode DStar/DMR/YSF.
